(By Associated Press)
BALTIMORE, Md., May 24.—The steamer City of Annapolis arrived today with four passengers from the Virginia. Captain Dougherty said when he arrived close to the Virginia he found the fire blazing so fiercely that he could not approach her. Other steamers brought more than a hundred passengers and the crew of the Virginia.

Clark Divide Contracts For A Double Shaft

Charles R. Topping has placed a contract for sinking a double compartment shaft on the Clark Divide Mining company, operating east of Klondyke, with Tom Bosanke. The shaft will be sunk 100 feet and the contractors also will do 100 feet of lateral work in exploring for the ledge which the company is confident of finding. The management will be in the hands of Thomas Clark, locator of the property which attracted so much attention when rich assays were had from a shallow hole shortly after the group was located. The company was organized only three weeks ago and no time is being lost in getting action. Dr. Roy W. Martin of Las Vegas is president of the company and chief stockholder. The stock has been placed in San Francisco and the east.

HASBROUCK EXPLORATION CONFIRMS REPORTS

The Hasbrouck reports that exploration of the old workings on the 200-foot level has confirmed in part the statements of Robert M. Smith, former superintendent. Hundreds of feet of drift and crosscuts have been identified by men who crawled past several caves. Sampling of the vein system will be started as soon as obstructions are removed.

No matter how they squirm and kick, the "germ" will be taken out of Germany.

CLEAN UP THE GARBAGE

The Bonanza calls attention of the health officers and the town board to the condition of the back streets where the rear of the restaurants reek with filth thrown out loosely from kitchens. No attempt is made to place this refuse in containers and the result is that in a short time the stuff is scattered over the street. The town authorities should see that this disgrace is abated without further complaint.

AUSTRIAN ARMY CUT TO 15,000

(By Associated Press)
PARIS, May 24.—The council of four today continued consideration of the economic clauses of the Austrian treaty. Experts were consulted. It still is expected that the presentation will occur Wednesday.

The military terms of the treaty will reduce Austria's formidable army of upward of a million men, which only is second to Germany, to 15,000. Virtually all military supplies will be surrendered or destroyed, and further military production abolished. All warships must be surrendered, and Austria's position as a naval power terminated.

A memorandum of the American delegation prepared showing the status of affairs before the peace conference after conclusion of the Austrian treaty, indicates the conference will continue a considerable time after the treaties have been signed and President Wilson returned to the United States.

CLOUDBURST IN BENTON CANYON

A cloudburst swept Benton canyon yesterday afternoon taking everything in its path for a distance of six miles and burying under sand what could not be carried down. The storm was witnessed by Dr. Elftman, who was starting back to Mina from a visit to the Simon mine and was far enough away to avoid the storm. The canyon was filled four feet with water for a width of 60 feet washing from wall to wall. The flood subsided in about an hour and the doctor was enabled to work his way down to Mina. On the road he passed two trucks and two cars imbedded in the sands which had been piled up high deep.

The flat between Luning and Mina was covered by the deluge and the flat south of Sodaville was filled with silt. The road between Sodaville and Tonopah was found in good condition and the trip was made in three hours, arriving here at 7:30 this morning.

They may now re-enlist for one or three years. Orders also will be issued annulling the requirement of seven-year men to serve their full time in the reserve and authorizing their immediate re-enlistment for the new three-year period after they have completed one such period in active service.

SPANISH BELT WEEKLY REPORT

The weekly report of the Spanish Belt mine shows the following advances in the different workings:

The new compressor building, taking in blacksmith shop and store-room, has been completed, including the roof. The compressors are in place on the new concrete foundations and will be ready to start up in a few days, when the full force will resume work on San Pedro. As soon as the new compressor is in commission, work will be started on raise No. 1 on the October vein at a point where it shows good values.

The dam at the spring above San Pedro is about completed and work started on the water line, which will be finished in a few days. The work will begin on new and heavier guides for shaft and reinforcement of gallow frame, and the new hoist, which is on the ground, will be set up.

The east and west drifts from the south drift, exposing the vein for about 100 feet from south crosscut, have been cleaned out and the vein is showing up well.

A big station will be cut at the 145-foot level to give plenty of room to get timbers and other material down promptly, and new bulkhead and trappdoors will be put in, which will permit working below the 145-foot level without interfering with work at that point.

There will also be a station cut at the 70-foot level, where there is now some old drift work, also an old slope where ore was taken out running as high as \$800 a ton.
